Under the direction of the Branch Manager and Assistant Branch Manager, the Customer Service Supervisor (CSS) is responsible for the daily supervision of the branch teller staff, creating a high quality service team that earns the long-term loyalty of the customers. Oversees and conducts the accurate processing of various customer transactions. The CSS coaches the teller team in all aspects of sales, service, and operations; responding to customer inquiries by answering questions, resolving problems or referring customers to the appropriate sales/service personnel. The CSS is responsible for the daily control of the branch's main vault, distributing, and receiving cash to/from the staff. Demonstrates a willingness to do more than is required or expected by embracing the Bank's mission statement and core values, which will improve results and morale as well as create new opportunities. Responsibilities:

Responsible for overseeing the daily supervision of the teller line.

13965318 MAINTENANCE TECHNICIAN II-DBC3	1	40		
	TAUNTON		INETEMPL	09/04/20

About Maintenance at JLL Supporting Amazon s State-of-the-art locations

Operations is at the heart of our client s business. They are known for our speed, accuracy, and exceptional service. Their buildings deliver tens of thousands of products to hundreds of countries worldwide, every day. Reliability Maintenance & Engineering (RME) are the business partners that work tirelessly behind the scenes to make it all happen. We drive continuous improvement, and maintain all of the Material Handling Equipment (MHE) to ensure our customers are met with the Amazon smile. Come join us, on our journey! About the Role

As a Maintenance Technician II, you will use your skills to support the Operations Maintenance team in repairing and maintaining material handling equipment and pneumatic systems throughout the building. You will have the opportunity to install, maintain and repair automated packaging and distribution equipment. In addition to developing your skills, you will mentor junior technicians to grow in their roles.

Who We Are - Since 1994, Amazon has evolved from a single retail website to become a global development platform as well as an e-commerce and publishing partner. Innovation is in our DNA, and we constantly seek out the world's brightest technology minds to research and develop new solutions to improve the lives of our customers: shoppers, sellers, content creators, and developers around the world. Because that's what being Earth's most customer-centric company is all about, and it's still Day One at Amazon.

Amazon's transportation teams work to ensure the delivery packages globally for customers around the world. On its busiest day, Cyber Monday, Amazon customers around the world have ordered more than 400 items per second and the transportation teams play a critical role ensuring packages make it to customers' doors on-time and in great condition. Whether its items large or small, we find solutions to make sure we are delivering on our promise for customers.

Job Description:

Lead new product development to deliver safe and effective medical device products to the market by ensuring all aspects of design controls are robust and comply with company polices and international medical device quality regulations including EU MDR, 21 CFR 820, ISO 13485, RDC 16/2013.

Oversee medical device design verification/validation, DHF tracking, and product release authorization procedures. Act as subject matter expert for technical design reviews with responsibility for compiling and presenting the quality data to key stakeholders/leadership during technical design reviews.

Prepare regulatory submissions and support sustaining quality with defending design control elements during internal and external

13983191 QUALITY INSPECTOR	1	40	7:30 am	4:00 pm		
	TAUNTO	ON			INETEMPL	09/10/20

maxon has approximately 2,500 employees and is the worldwide leading provider of precision drives. These drives are in use everywhere from deep inside the earth to the surface of the planet Mars.

The Quality Inspector will inspect incoming components and use a variety of methods including standard tools such as calipers, micrometers, height gauges, as well as more advanced methods such as Keyence vision systems and/or CMM / Laser equipment etc. Includes physical inspection and paperwork inspection to verify conformance to requirements. Maxon Precision Motors has recently opened a new factory in Taunton, MA. In this factory, small electric motors and precision gearboxes are being assembled, as well as customized systems providing variety in requirements and inspection methods.

Quality Inspector – Taunton, MA

13956913 SITE SURVEYOR	1 40		
	TAUNTON	INETEMPL	09/02/20

Summary

The Site Surveyor will be part of Tesla s Field Energy Operations team. As an integral member of the team, the ideal candidate will work cooperatively with other team members to successfully complete site surveys to support the installation of residential photovoltaic solar systems, battery storage, and EV wall connectors safely and on time. The ideal candidate will be skilled, motivated, willing to learn, and reliable.

Essential Duties and Responsibilities include but are not limited to the following:

- * Assess job site conditions upon arrival.
- * Measure roof planes, vents, dormers, and chimneys
- * Measure and access attic structure and condition
- * Capture shade reading

13949100	SR. ELECTRICAL R&D ENGINEER	1	40					
		MANSFI	ELD			INETE	MPL	08/31/20

SUMMARY OF POSITION:

A Senior Research and Development Engineer for Electro-mechanical Group will perform design and development as well as product sustaining engineering activities. These activities will cover all phases of the product life cycle from concept through end of life. The individual in this position will often lead small projects but will also assume an individual contributor role. The engineer must have the flexibility of skill and temperament to work in both product development, and product change development. Attention to detail and working knowledge of regulations for the medical device industry are essential. The engineer must be able to work in a team environment and be able to communicate clearly across all disciplines including Quality Assurance, Regulatory Affairs, Manufacturing, Marketing and outside design partners and regulatory agencies.

As part of our team you will:

13948821 TEACHER	1 30		
	MIDDLEBORO	JCAHI 08/3	1/20

Position Description/Minimum Qualifications *

Here at LearnWell, we?ve dedicated ourselves to making a life-changing impact on the 10 million students currently in the U.S. who live with some type of behavioral health need (depression, anxiety, suicidal ideation, eating disorder, substance use). For nearly 25 years, we have provided on-site instructional services within the hospital setting, helping students to continue their academic progress during treatment and successfully reenter the classroom. LearnWell has a network of 180+ dedicated educators that commit themselves daily to embracing our mission and positively impacting generations to come.

LearnWell is currently looking for our next creative and passionate teacher to fill a part-time ten-month teaching position in Middleboro, MA. We would love to collaborate with you and help more kids journey towards their full potential.

13964995 TECHNICAL TRAINER, ENERGY - TRAINING AND 1 40		
TAUNTON	INETEMPL	09/04/20

The Technical Trainer will report to the Installation Quality Manager and be primarily responsible for conducting instructor led trainings (ILT) for our Direct and Certified Installers so that our workforce is knowledgeable and adheres to the best practices in the company. This will be accomplished through New Hire Onboarding, task qualifications programs, continuing education courses, as well as hands on training in the field. Additionally, the Technical Trainer will be responsible for creating and maintaining training content and delivery methods in coordination with managers and subject matter experts to ensure best practice state-of-the art training on Tesla Energy products, installation methods, leadership, and customer engagement.

The ideal candidate has significant experience leading an Energy Product installation crew and a demonstrated track record of high quality, efficient and safe installations. This person must be a charismatic motivator and an effective communicator. They must also be patient with new trainees, organized, consistent, and creative. This trainer also needs to be self-motivated and driven to manage their time while having a remote reporting structure.
