18905979	CYBER SECURITY ANALYST		1 40					
Ocean Spray Cranberries, Inc.		LAKEVILLE				INETEMPL		05/02/23

In this job, a Cyber Security System Analyst works within a team to identify flaws in our cooperatives security systems and proactively develop solutions. Their investigations aren't solely concerned with preventing exterior threats; often, an analyst will also assess risks to the cooperatives internal network.
 The cybersecurity analyst role also includes examining reports, data, and analytics to identify suspicious activity and threats. Analysts then use that collected information to develop protections and inform our cooperatives choice of security software and work with the team members to develop proactive strategies to combat risk and cyber threats.
 In this role, the analyst may provide advice to company leadership on what they can do to improve their security and the cooperatives training programs to help non-technical employees better understand and adhere to the organization's security policies.
 This role requires creative thinking about new solutions, coding, and exploring new tech. A solid understanding of how systems and networks operate is critical to success in this role. As part of your job, you will be expected to do the following:
