**19100691 COMMERCIAL PORTFOLIO MANAGER-PROVIDE 1 40**  
**Rockland Trust Company SOMERSET INETEMPL 05/26/23**

The Portfolio Manager role is credit orientated reporting on a solid-line basis to the Commercial Credit Officer. Portfolio Managers are typically assigned to and support specifically designated Lending Officers and their respective loan portfolios. Performance reviews are prepared by the Commercial Credit Officer with input from the Regional Manager and Lending Officer to whom the PM is assigned. Portfolio Manager uses their credit skills to underwrite and manage a portfolio of loans for both C&I and Real Estate. The PM works with lenders who solicit, develop and service a wide variety of commercial loans and lines of credit.

Under the direction and review of the Commercial Credit Officer, the PM is responsible for evaluating and making independent credit decisions and recommendations including but not limited to evaluating obligor risk ratings on both new and existing relationships and ensuring quality and soundness for credit transactions. The Portfolio Manager manages the approval and commitment process (e.g. Senior Loan Approval Committee) ensuring compliance with Credit Policy and accuracy of documents and supporting exhibits.

Companions provide a variety of beneficial services that make life more manageable for older adults, but companionship itself is perhaps the most important, particularly for seniors who live alone and find it difficult to get out of the house. Older adults living independently often experience loneliness and isolation and companions engage in conversations, take walks with the care recipients, and play games like card games or board games, and simply provide a listening ear and someone to talk to.

A.I.S., Inc. (AIS) is a national scientific services firm supporting maritime activities requiring certification of compliance with environmental regulations as well as collecting data for use by Federal, State, Municipal, and other government agencies along the US coastline. AIS seeks a highly qualified Longfin Squid Data Analyst (Part Time) to collaboratively participate in the upcoming longfin squid (Doryteuthis (Amerigo) pealeii) research track stock assessment.

Research Track Stock Assessments are carried out over several years and can consider extensive changes in data, models, or stock structures. They are intended to provide the basis for future Management Track Stock Assessments, which are used to determine stock status and project future sustainable catches.

The longfin squid stock is not assessed with an analytical model. Magnitude and trends in catchability-adjusted, swept-area biomass estimates, based on the Northeast Fisheries Science Center (NEFSC) spring and fall surveys, are used to assess stock status and set catch levels.
