Companions provide a variety of beneficial services that make life more manageable for older adults, but companionship itself is perhaps the most important, particularly for seniors who live alone and find it difficult to get out of the house.

Homemaking we will get you Certified for free-and you have 6 months to become certified as a Companion/Homemaker while working. That is very light house cleaning and shopping for the patient. It is a 37-hour class that Mas.gov provides to you for free.

Older adults living independently often experience loneliness and isolation and companions engage in conversations, take walks with the care recipients, and play games like card games or board games, and simply provide a listening ear and someone to talk to.
